INDEX TO AGRICULTURAL ENGINEERING

Volume 19—January to December, 1938

Issue	*Pages*
JANUARY	1- 48
FEBRUARY	49- 96
MARCH	97-144
APRIL	145-192
MAY	193-240
JUNE	241-296
JULY	297-336
AUGUST	337-376
SEPTEMBER	377-416
OCTOBER	417-464
NOVEMBER	465-512
DECEMBER	513-552

A

Adhesion between soil and metal surfaces, A study of the nature of physical forces governing the 73

AGRICULTURAL ENGINEERING (Agricultural Engineers) (See also Agricultural Engineering Digest, Engineering, Extension, Research, News, What Agricultural Engineers Are Doing)

Farm production engineering (editorial) 6

An English view of American agricultural engineering 10

An economic parallel (editorial) 101

Engineering farm types (editorial) 102

Engineering in a changing agriculture 114

Agricultural engineer the key to better values 120

Relationship between engineering and agronomic practices in soil and moisture conservation 167

Engineering method in agriculture (editorial) 197

Confounding the "Doubting Thomas" (editorial) 197

Engineering's biggest job 218

Agricultural engineers in cooperative activities 253

Agricultural engineering in forage handling (editorial) 301

Educational waste (editorial) 302

Tomorrow's challenge to agricultural engineers 303

The coordinating function of agricultural engineers (editorial) 342

Bridging the gaps 343

Engineered living conditions (editorial) 382

The engineering inherent in agriculture (editorial) 382

Handbook considerations (editorial) 421

Chemurgic research laboratories (editorial) 469

The agricultural engineering scene (editorial) 469

Purchasing power prices (editorial) 517

Problems of flow of water of special concern to agricultural engineers 527

Instruction in rural electrification 535

AGRICULTURAL ENGINEERING DIGEST (A review of current literature) 42, 86, 140, 188, 236, 290, 328, 372, 414, 456, 506, 546

Air conditioning, Fundamental concepts of 429

American Society of Agricultural Engineers (See Agricultural Engineering, Meetings, News)

Anderson, Earl D.
New barns for new conditions 117

Arrington, Woodrow
Structural analysis of roof truss design 199

Asphalt, Soil stabilization with emulsified 475

Ayres, Quincy C.
Relationship between engineering and agronomic practices in soil and moisture conservation 167

B

Bainer, Roy
Results of tests of a rubber roller seed bean thresher 251

Bamesberger, John G.
Erosion control on steep irrigated slopes 531

Barger, E. L.
Distillate as a tractor fuel 67

Power, fuel, and time requirements of contour farming 153

Barns for new conditions, New 117

Barre, H. J.
Vapor pressures in studying moisture transfer problems 247

Bean thresher, Results of tests of a rubber roller seed 251

Bennett, Charles A.
The relation of mechanical harvesting to the production of high grade cotton 386

Bindweed control by clean cultivation 219

Bowen, Leslie
Irrigation of field crops on the Great Plains 13

Brick (See structures)

Bridgman, C. T.
Cribs and granaries of clay tile 115

BROODING
Forced ventilation of brooders 348

Outdoor brooding of chicks 363

Brooks, F. A.
An electric drawbar dynamometer 431

Bruhn, H. D.
Water transmission and distribution for irrigation 264

Buildings (See Structures)

Burnet, George
The use and design of settling basins 480

C

Carter, Deane G.
A state-wide farm building program 59

CHEMURGY, FARM
The chemurgic research endowment (editorial) 53

Herbs in chemurgy (editorial) 102

Cases in chemurgy (editorial) 198

Agricultural engineers in cooperative activities 253

Making farm crops more available for industry 278

Moist air farming (editorial) 301

Tomorrow's challenge to agricultural engineers 303

Chemurgic research laboratories (editorial) 469

Christiansen, J. E.
Portable valve meter for measuring irrigation water 428

Ciriacy-Wantrup, S. Von
Land-use planning or land-use policy in the United States 261

Citrus pests, Dusting for control of 165

Clyde, A. W.
Spring trip cultivator shanks 315

Combines, Results of field tests on small 207

Concrete (See Structures)

Connectors in wood construction, Modern 201

CONSERVATION, SOIL AND WATER (See also Drainage, Erosion Control, Irrigation, Land Use, Machinery, Soils, Terracing, Tillage)

New mechanical technique to develop vegetative cover 11

A plow that builds contour furrows 57

Agricultural hydrology (editorial) 102

Soil conservation districts 111

Watercycle lysimeters for watershed studies 123

Power, fuel, and time requirements of contour farming ... 153

Relationship between engineering and agronomic practices in soil and moisture conservation ... 167

Seasonal watershed data (editorial) ... 422

Water and the land ... 519

Problems of flow of water of special concern to agricultural engineers ... 527

Cook, Max E.
Marketing a prefabricated septic tank 473

Cooperative activities, Agricultural engineers in ... 253

Corn planter fertilizer attachments ... 523

COTTON
Cotton gin precedent (editorial) ... 381

The evolution of the mechanical cotton harvester ... 383

The relation of mechanical harvesting to the production of high grade cotton ... 386

Progress in mechanical harvesting of cotton ... 389

Mechanical cotton harvesting experience in California ... 392

Some needs in cotton harvesting development ... 393

Cribs and granaries of clay tile ... 115

Crops on the Great Plains, Irrigation of field ... 13

Cultivator shanks, Spring trip ... 315

D

Dairying (See Electrification, Structures)

Deere medalist, S. H. McCrory first John ... 34

Dehydration of fruits ... 349

DeLong, G. F.
New mechanical technique to develop vegetative cover ... 11

Depreciation of farm electric equipment ... 205

Depreciation of farm equipment (editorial ... 381

DISEASE CONTROL (See also Pest Control, Weed Control)
Equipment for plant disease control 353

The use of vapor spray in plant disease control ... 524

Plant disease control problems ... 530

Distillate as a tractor fuel ... 67

Districts, Soil conservation ... 111

Dolvin, R. L.
New mechanical technique to develop vegetative cover ... 11

Downing, John M.
A complete water-disposal plan using vegetation in terrace outlets ... 211

DRAINAGE, LAND
The physical and financial aspects of public drainage enterprises ... 250

Runoff from small drainage basins ... 439

The use and design of settling basins 480

Driftmier, R. H.
Steel units in building construction 159

Drought (See Conservation)

Duffee, F. W.
A new farm transportation unit ... 103

Dusting for control of citrus pests ... 165

Dynamic properties of soil, The ... 73

Dynamometer, An electric drawbar ... 431

Dynamometer tests of tracks and rubber 23

E

Ebinger, D. G.
An extension program for helping farmers to make electricity practical ... 107

Edgar, A. D.
Control of moisture and temperature in potato storages ... 399

Editorials (See subject matter headings)

Educational waste (editorial) ... 302

Ekblaw, K. J. T.
Low cost building construction in practice ... 9

ELECTRIFICATION, RURAL (See also Brooding, Irrigation, Machinery, Refrigeration, Storage)
The bottleneck in rural electrification (editorial) ... 5

Farm experience with wind electric plants ... 7

An extension program for helping farmers to make electricity practical ... 107

A rural electrification extension program ... 122

REA program makes progress ... 163

Depreciation of farm electric equipment ... 205

New things in farm electric applications ... 259

Electric load possibilities (editorial) 302

Engineering services for farm users of electricity ... 309

Recommended practice for use of sunlamps in animal and poultry husbandry ... 401

Temperature of soil heating cable in three different media ... 404

A profile of farm electrification in America ... 423

A new demand for ventilating and heating poultry houses ... 479

Energy requirements and safety features of electric insect traps ... 485

Progress of farm electrification in the Tennessee Valley ... 493

Electric pasteurization of milk ... 525

Instruction in rural electrification ... 535

Ellsworth, J. K.
Energy requirements and safety features of electric insect traps ... 485

ENGINEERING
Unified engineering representation (editorial) ... 53

Engineering and the sciences (editorial) ... 54

Dissatisfaction in engineering minds (editorial) ... 101

Unionization of engineers (editorial) 198

Appraisal of engineering values (editorial) ... 245

For more and better engineering (editorial) ... 302

Engineering services for farm users of electricity ... 309

Periodicals and engineering progress (editorial) ... 341

Advertising labor content for goodwill (editorial) ... 342

Engineering specialization (editorial) 342

Engineering redefined (editorial) ... 421

Engineers on invention (editorial) ... 470

Engineers as citizens (editorial) ... 517

EROSION CONTROL, SOIL (See also Terracing)
Effect of degree of slope and rainfall characteristics on runoff and soil erosion ... 213

Relation of soils to mechanical erosion control structures ... 317

Some observations on the behavior of models of gully control structures ... 359

Erosion control on steep irrigated slopes ... 531

EXTENSION
A state-wide farm building program 59

An extension program for helping farmers to make electricity practical ... 107

Engineering in a changing agriculture 114

A demonstration of better fence building ... 121

A rural electrification extension program ... 122

Effective extension cooperation (editorial) ... 150

REA program makes progress ... 163

F

FARMS (Farming)
Farm production engineering (editorial) ... 6

Tenant farms (editorial) 6
A business view on farming (editorial) 101
Engineering farm types (editorial) 102
Two-house farms (editorial) 246
Moist air farming (editorial) 301
Big machines for big precision farm jobs 483
Feed collector, A small diameter 109
Feeds, A proposed method for determining the uniformity of ground 258
Fence building, A demonstration of better 121
Fertilizer attachments, Corn planter 523
Financial aspects of public drainage enterprises, The 250
Fletcher, Leonard J.
Bridging the gaps 343
Forage (See Harvesting)
Forage handling, Agricultural engineering in (editorial) 301
French, Orval C.
Dusting for control of citrus pests 165
Frost protection, Blowers for 307
Frudden, C. E.
Farm tractor fuel trends 151
Fruits, Dehydration of 349
FUELS, TRACTOR
Distillate as a tractor fuel 67
Farm tractor fuel trends 151
Power, fuel, and time requirements of contour farming 153
Fuel experience from Nebraska tests 255

G

Gale, J. L.
Distillate as a tractor fuel 67
Garver, Harry L.
An electric drawbar dynamometer 431
Geer, Olin M.
A small diameter feed collector 109
Gerlach, H. W.
Bindweed control by clean cultivation 219
What industry expects of public research agencies 433
Granaries of clay tile, Cribs and 115
Graphic solution of terrace outlet channel dimensions, Direct 55
Grass silage harvesting methods 311
Grass silage 471
Griffith, James R.
Use of models for structural design 355
Groundwater basin, Simplified determination of the safe yield of a 395

H

Hagglund, B. L.
Big machines for big precision farm jobs 483
Hamlin, Frank H.
Grass silage harvesting methods 311
Grass silage 471
Hanson, G. B.
An analysis of the farm structures market 17
Hardisty, F. E.
New mechanical technique to develop vegetative cover 11
Hardy, E. A.
Tillage in relation to weed root systems 435
Harper, W. A.
Some dynamometer tests of tracks and rubber 23
HARVESTING
Results of field tests on small combines 207
Results of tests of a rubber roller seed bean thresher 251
Grass silage harvesting methods 311
Cotton gin precedent (editorial) 381
The evolution of the mechanical cotton harvester 383
The relation of mechanical harvesting to the production of high grade cotton 386
Progress in mechanical harvesting of cotton 389
Mechanical cotton harvesting experience in California 392
Some needs in cotton harvesting development 393
Grass silage 471
Hawthorn, Fred W.
Farm experience with wind electric plants 7
Haying, Heat on (editorial) 422
Heating poultry houses, A new demand for ventilating and 479
Hendrickson, A. H.
Water-holding capacity of soils and its effect on irrigation practices 487
Hienton, Truman E.
Depreciation of farm electric equipment 205
Instruction in rural electrification 535
Hiller, J. C.
Simplified determination of the safe yield of a groundwater basin 395
HOMES (Houses) (See also Electrification)
Remodeling possibilities for farm homes 72
Unit equipment in farm homes 158
Huber, M. G.
Needed improvements in potato machines 105
Corn planter fertilizer attachments 523
Hurd, C. J.
Progress of farm electrification in the Tennessee Valley 493

I

Implements (See Machinery)
Insect Pest Control (See Pest Control)
Insect traps, Energy requirements and safety features of electric 485
Invention, Engineers on (editorial) 470
IRRIGATION
Irrigation of field crops on the Great Plains 13
Irrigation systems and their application 21
Sprinkler irrigation in the humid sections of Oregon 161
Water transmission and distribution for irrigation 264
Analysis of border irrigation 267
Pumping equipment for irrigation 319
Simplified determination of the safe yield of a groundwater basin 395
Portable valve meter for measuring irrigation water 428
Water-holding capacity of soils and its effect on irrigation practices 487
Erosion control on steep irrigated slopes 531

J

Johnston, E. A.
The evolution of the mechanical cotton harvester 383
McCormick Medalist for 1938 35
Jones, Lewis A.
The physical and financial aspects of public drainage enterprises 250

K

Keith, Dr. T. B.
Stalls for experimental lamb feeding 314
Kelly, Ira D. S.
Modern connectors in wood construction (discussion) 201
Krimgold, D. B.
Runoff from small drainage basins 439
Krueger, W. C.
Engineering in a changing agriculture 114
Kummer, F. A.
The dynamic properties of soil—VII. 73

Use of models for structural design 355
Fundamental concepts of air conditioning 429
Soil stabilization with emulsified asphalt 475
STUDENT BRANCH NEWS 40, 84, 134, 184, 288, 504, 544
Sugar beet production machinery, Special 481
Sunlamps in animal and poultry husbandry, Recommended practice for use of 401
Surplus, The agricultural (editorial) 149

T

Tavernetti, J. R.
Energy requirements and safety features of electric insect traps 485
Temperature in potato storages, Control of moisture and 399
Temperature of soil heating cable in three different media 404
Temperatures on experimental peat bog, Meteorological phenomena affecting low 273
Tenant farms (editorial) 6
TERRACING (See also Erosion Control)
Direct graphic solution of terrace outlet channel dimensions 55
Experimental studies in terracing 63
A complete water-disposal plan using vegetation in terrace outlets 211
Thalmann, V. W.
Direct graphic solution of terrace outlet channel dimensions 55
Thresher, Results of tests of a rubber roller seed bean 251
TILE (See also Drainage, Structures)
Cribs and granaries of clay tile 115
TILLAGE
Tests of tillage tools 29
Tillage in relation to weed root systems 435
TIRES, RUBBER
Some dynamometer tests of tracks and rubber 23
Rating tractor tires for performance 26
Tractors, Agricultural (See Fuels, Machinery, Tires)
Transit, The warming of milk in 61
Transportation unit, A new farm 103
Truss design, Structural analysis of roof 199

U

Unit equipment in farm homes 158

V

Vapor pressures in studying moisture transfer problems 247
Vapor spray in plant disease control, The use of 524
Vegetable packaging (editorial) 5
Vegetables by water spray, Precooling 397
Vegetative cover, New mechanical technique to develop 11
Veihmeyer, F. J.
Water-holding capacity of soils and its effect on irrigation practices 487
Ventilation of brooders, Forced 348
Ventilating and heating poultry houses, A new demand for 479

W

Walker, H. B.
Mechanical cotton harvesting experience in California 392
Warming of milk in transit, The 61
Water and the land 519
Watercycle lysimeters for watershed studies 123
Water-disposal plan using vegetation in terrace outlets, A complete 211
Water of special concern to agricultural engineers, Problems of flow of 527
Waterman, W.
Some needs in cotton harvesting development 393
WEED CONTROL (See also Disease Control, Pest Control)
Bindweed control by clean cultivation 219
Tillage in relation to weed root systems 435
WHAT AGRICULTURAL ENGINEERS ARE DOING, 36, 78, 129, 170, 224, 279, 325, 365, 407, 447, 496, 536
Wible, Elmer T.
Agricultural engineer the key to better values 120
Wichers, H. E.
Remodeling possibilities for farm homes 72
Wind electric plants, Farm experience with 7
Winters, J. S.
Results of tests of a rubber roller seed bean thresher 251
Wood, A. R.
Outdoor brooding of chicks 363
Wood construction, Modern connectors in 201
Wood, Ivan D.
Pumping equipment for irrigation 319

Y

Yerkes, Arnold P.
Agricultural engineers in cooperative activities 253
Tomorrow's challenge to agricultural engineers 303

Z

Zeasman, O. R.
Relation of soils to mechanical erosion control structures 317
Zink, Carlton L.
Fuel experience from Nebraska tests 255
